Vote NO on Question 3**

- **Ranked Choice Voting opens the Election to Voter Fraud.**
- It allows people to vote for 5 candidates for the same office and the County Clerk or Registrar will manipulate the results to determine the winner.
- A candidate who actually comes in second or third can win the election.
- In California ranked choice voting has resulted in Democrats winning in almost all elections.
- Jungle Primaries take away the right of all political parties and their members to choose their own candidates who represent their values.
- Jungle Primaries allow a candidate to hijack the name of a party because the candidate thinks he will have a better chance of being elected by deceiving the voters.
- Non Partisan-independent voters can vote in all non-partisan primaries.
- **In Nevada the Democrat, Republican and Independent American Parties all oppose Question 3.**
